|---------------------------------------------------------------------------|---------------------------------------------------------------------|
| <input checked="" type="checkbox"/> Nonprofits or local coalitions | <input type="checkbox"/> Businesses or labor organizations |
| <input checked="" type="checkbox"/> Schools or universities | <input type="checkbox"/> Media |
| <input type="checkbox"/> Health care providers | <input checked="" type="checkbox"/> Local public health departments |
| <input type="checkbox"/> State public health departments | <input type="checkbox"/> Policymakers |
| <input type="checkbox"/> Hospitals, clinics or managed care organizations | <input type="checkbox"/> Other: |

Background on the intervention:

Community Trials to Reduce High-Risk Drinking is a multi-component, community-based program developed to alter alcohol use patterns for people of all ages [e.g., drinking and driving, underage drinking, acute (binge) drinking], and related problems.

Findings from the systematic reviews:

The Substance Abuse and Mental Health Services Administration (SAMHSA) lists Community Trials to Reduce High-Risk Drinking as a model program. See the link below for more information.
